3.2	Fields: Alphabet G
3.3	Fields: Alphabets H-S
3.4	Fields: Alphabets T-Z

1.0 Executive Summary

This document contains a Data Dictionary for the EmpowHR application including associated modules and verification of mapping to the Payroll/Personnel System. The underlying database is Microsoft SQL Server 2000. The Data Dictionary defines records and fields associated with the EmpowHR application. Due to an excessive amount of data for the Data Dictionary, it was necessary to provide separate documents for the records and fields. Please see additional documents.
